

Contactless Large Vehicle Wash Machine ·
Factory Direct Supply

Large Vehicle Wash Machine

Aoqi (OKO) was founded in 2019 and focuses on the R&D, production, and sales of intelligent car wash equipment. We are committed to providing customers with stable, efficient, and easy-to-deploy automatic car wash solutions. Our main products include contactless large-vehicle wash machines, fully automatic car wash equipment, and supporting systems, supporting multi-scenario applications and customized services for buses, cargo trucks, and trucks.

Contactless Cleaning

Avoid scratching the paint

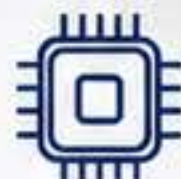

Foam Spraying

Deep cleaning and dirt removal

High-Pressure Rinsing

Powerfully rinses away mud and sand

Intelligent Control

Automatic sensing operation

Factory Direct Supply

Own factory
Production & sales
Quality assurance
Better prices

Customization Supported

Flexible customization of equipment specifications
Meets different site requirements

Installation Guidance

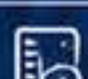

Equipment installation drawings and videos
Engineers provide remote/on-site support

After-Sales Service

Professional after-sales team
7×24 timely response

 Brand:	Aoqi
 Model:	MODEL 05
 Water Consumption:	350-800 L
 High-Pressure Pump:	Xiandao, optional imported AR, Taiwan Wuli
 Contactor:	In-house controller or Siemens

 Product Name:	Large Vehicle Wash Machine
 Washing Pressure:	50-150 bar
 Installation Size:	20 × 6 × 6 m
 Drying System:	Optional blower
 Controller:	OKO

Optional: Display Screen / Smart Payment / Custom Language / Optional Blower

Six Core Advantages

Intelligent Control • High-Pressure Cleaning • Stable & Durable

01 Contactless Cleaning for Large Vehicles

360° all-around washing, gentle on paintwork

02 Foam Coverage

Even foam coverage improves dirt removal efficiency

03 Gantry High-Pressure Rinsing

Top and side spray work together for more thorough cleaning

04 Automatic Vehicle Body Detection

Adapts to the dimensions of buses, cargo trucks, and trucks

05 Intelligent Control

PLC + touch screen, intuitive and convenient operation

06 Safety Protection

Anti-collision limit protection for safer operation

01 Automatically Detects Vehicles

Precisely scans and identifies vehicle type

02 Intelligently Sets the Program

Automatically matches and optimizes parameters

03 Efficiently Completes Washing

Fully automatic throughout, clean like new

Suitable for: Buses / Cargo Trucks / Trucks / Fleet Parks

Technical Parameters

Installation Requirements / Suitable Applications

-  Suitable Vehicle Types: Bus / Cargo Truck / Truck
-  Recommended Site Size: Approx. 20 m × 6 m × 6 m
-  Power Supply Reference: 380V

 **Logistics Fleet**
Improve washing efficiency
Reduce labor costs

 **Passenger Bus Station**
Standardized washing process
Enhance operational image

 **Port Area**
Fast cleaning for large vehicles
Meet high-frequency demand

 **Industrial Park**
Complete supporting services
Improve washing efficiency

 **Optional:** Display Screen / Smart Payment / Custom Language / Optional Blower

Real Case Studies · On-Site Photos

Real Equipment · Real Washing Results · Factory After-Sales Support

Strong Brand Power Worthy of Trust

Factory Direct Supply

Source factory
Better prices

Quality Assurance

Strict quality control
Stable and durable

Mature Technology

Years of experience
Professional and reliable

Worry-Free After-Sales

Fast response
Continuous service

Service Support

Manufacturer Direct Supply

Source factory, controllable quality

Customization Supported

Configured according to site requirements

Installation Guidance

Provide drawings, videos, and remote support

After-Sales Service

Dedicated follow-up, timely response

Ideal Partners:
Passenger Buses / Logistics Fleets / Port Areas / Industrial Parks
